**Subject:** FW: Timeline

FYI- Caribou is being prepared to island due to Caribou-Table Mountain 230kv de-energization.

Per below timeline, Rock Creek SC observed loss of distribution line to Cresta Dam yesterday morning and notified North Valley Distribution Operations of that. They were to dispatch a patrol of the line. In the evening, Rock Creek SC was notified of a fire on the hillside, and they notified Calfire. Unknown whether the outage and fire are related or not.

Is there someone from the Wildfire organization and/or legal who we should proactively send this timeline to?

Thanks,
